

PRESS FACTSHEET

UNGOVERNED INTELLIGENCE

A leadership book for governing data, AI systems, and autonomous agents before speed, scale, and automation turn weak governance into institutional failure.

TITLE	Ungoverned Intelligence
SUBTITLE	How Leaders Can Build Trust Before AI Scales Beyond Control
AUTHOR	Fateh uddin B. Mehmood
PUBLISHER	Veridica Press
PUBLICATION DATE	15 August 2026
ISBN	To be confirmed
LENGTH	780 pages
TRIM	6 x 9 in
PRICES	To be announced

CORE IDEA

AI does not fail alone. The institution beneath it fails first. The book gives leaders language, stories, a seven-layer Trust Stack, controls, and a roadmap for moving toward governed intelligence.

PRIMARY AUDIENCES

Boards, CEOs, CIOs, CISOs, Chief Data Officers, Chief AI Officers, regulators, public-sector leaders, risk leaders, audit leaders, digital transformation teams, and AI governance professionals.
