

PRE-PUBLICATION ANNOUNCEMENT

# UNGOVERNED INTELLIGENCE FORTHCOMING 15 AUGUST 2026

Fateh uddin B. Mehmood announces *Ungoverned Intelligence*, a leadership book for governing data, AI systems, and autonomous agents before speed, scale, and automation turn weak governance into institutional failure.

- AI does not fail alone. The institution beneath it fails first.
- The book introduces the Trust Stack as a seven-layer method for governing intelligence beneath the model.
- The companion toolkit turns the argument into registers, checklists, dashboards, matrices, and implementation roadmaps.
